Robert Wiley
R.L. Wiley Electrical Contractors, Inc.
472 F-2 Flowing Wells Rd.
Martinez, GA 30907

Ref: Letter of recommendation

To whom it may concern,

I would highly recommend the use of R.L. Wiley Electrical Contractors, Inc. on any type project you may have.

We have worked with RL Wiley for several years now and we work in Healthcare facilities in the most stringent circumstances. It is imperative that we have the best/most competent contracting staff involved with our projects. This is the reason we turn to RL Wiley to be a part of our team working in these types of environments. Robert and his team understand the importance of infectious control measures and the environment we work in. It is my belief if you can work in patient care environment, you can work anywhere.

In addition, when it comes to issues and problems on jobs sites, Robert and staff are always proactive in finding solutions. This is a very important factor when considering a contractor as problem solving and solutions are an important part of the success of construction projects.

We thank R.L. Wiley Electrical Contractors, Inc. for all of their hard work and dedication and hope who/whomever reads this letter of recommendation will do the same after conducting business with R.L. Wiley Electrical Contractors, Inc.

Sincerely,

Blake Skarpalezos
President/CEO
Blake Contracting, L.L.C.
